

SUMMATIVE ASSESSMENT FIRST 2023-24

CLASS - 4

SUBJECT-

MATHEMATICS

OBTAIN GREAD.....

Q.1 Fill in the blanks.

(1) 990,,,, 994,,,, 998,.....100

(2) 556,,, 559,,,, 563,,

(3) 467,,,, 470,,,

(4) 850,,, 853,,,,

(5) 675,,, 678,,,, 682,

Q.2. Write the folloing numbers in words;

(1) 748.....

(2) 998.....

(3) 578.....

(4) 1699.....

(5) 1005.....

Q.3. Fill in the blanks with proper symbols (<, >, =)

(1) 400.....398.....389

(2) 749.....794.....497

(3) 685.....585.....785

(4) 445.....545.....545

(5) 989.....979.....998

Q .4.Solve these:

$$\begin{array}{r} (1) \quad 2 \quad 7 \quad 8 \\ + \quad 5 \quad 7 \quad 6 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} (2) \quad 4 \quad 5 \quad 1 \\ + \quad 3 \quad 9 \quad 6 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} (3) \quad \quad 9 \quad 8 \quad 9 \\ + \quad \quad 7 \quad 8 \quad 6 \\ \hline \\ \hline \end{array}$$

Q.5. Solve these:

$$\begin{array}{r} (1) \quad 3 \quad 8 \quad 3 \\ - \quad 2 \quad 3 \quad 2 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} (2) \quad 5 \quad 0 \quad 9 \\ - \quad 3 \quad 2 \quad 7 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} (3) \quad 2 \quad 3 \quad 7 \\ - \quad 1 \quad 2 \quad 6 \\ \hline \\ \hline \end{array}$$

Q. 6. Do addition through Ekadhiken purven:

$$\begin{array}{r} (1) \quad 2 \quad 8 \\ + \quad 1 \quad 5 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} (2) \quad 3 \quad 6 \\ + \quad 2 \quad 8 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} (3) \quad 5 \quad 3 \\ + \quad 4 \quad 9 \\ \hline \\ \hline \end{array}$$

Q. 7. Do subtraction through Eknyunen purven:

$$\begin{array}{r} (1) \quad 4 \quad 3 \\ - \quad 1 \quad 7 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} (2) \quad 8 \quad 4 \\ - \quad 5 \quad 7 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} (3) \quad 8 \quad 3 \quad 2 \\ - \quad 3 \quad 7 \quad 4 \\ \hline \\ \hline \end{array}$$

Q. 9. Write TRUE/ FALSE

1. There can be more than one radius in a circle. ()
2. The length of the radius is half the length of the diameter. ()
3. A circle can have two radius of different length. ()
4. The diameter of a circle always passes through the centre of the circle. ()

Q. 10. Make tables of 12, 13, 14, 15 and 16 with the help of 10's table.

- 12
- 13.....
- 14.....
- 15.....
- 16.....

Teacher's Note.
